REACH is a new European Union (EU) chemicals regulation that has entered into force on June 1, 2007 with several phased deadlines to 2018. The Article 33 of REACH regulation has regulated all article suppliers to do the communication of information about substances identified by the European Chemical Agency (ECHA) as candidates in Article 57 for Annex XIV of REACH, known as the list of Substance of Very High Concern (SVHC). Delta is committed to providing our customers with information about the chemical substances in our products as needed to comply with legal requirements. Moreover, the Article 67 of REACH regulation has regulated that a substance on its own, in a preparation or in an article, for which Annex XVII contains a restriction shall not be manufactured, placed on the market or used unless it complies with the conditions of that restrictions.

Delta Electronics (Thailand) PCL. products are compliance to Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).
