Delta Extends PMT Panel Mount Power Supply Series with 24V 200W Fanless Design

The PMT Panel Mount Power Supply series is now available in 200W output power with 24V output voltage. The PMT-24V200W1A□ has a fanless design which improves the mechanical reliability of the package without a moving part. The product provides two different connector options (Terminal Block and Front Face) and two different configuration options (enclosed and L frame) to satisfy different application needs for cost competitive markets.

Highlights & Features

- AC input voltage selectable by switch
- Full Aluminium casing for light weight and corrosion resistant handling
- Cold start -20°C with 100% load
- Low leakage current < 0.25mA @ 240Vac
- High MTBF > 700,000 hrs as per Telcordia SR-332
- Short Circuit / Overvoltage / Overcurrent / Over Temperature Protections

Major safety standard is certified according to IEC/EN/UL 60950-1 Information Technology Equipment (ITE); EMI standard according to EN 55022; Class A will fulfill test conditions with additional filtering components.

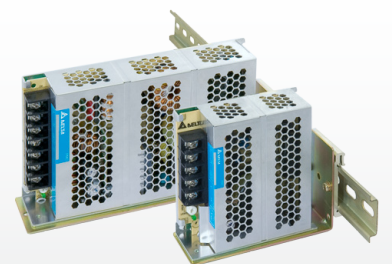

AVAILABLE FOR SHIPMENT FROM AUGUST 2013 ONWARDS.

New models are introduced on a regular basis. For more information or enquiries, please do not hesitate to contact your local Delta Electronics distributor or visit www.DeltaPSU.com.

Upcoming Events

- **Automation 2013**
Location: Mumbai, India
Dates: 23 – 26 September 2013
- **All-Energy Australia 2013**
Location: Melbourne, Australia
Dates: 9 – 10 October 2013
- **Process Expo 2013**
Location: Chicago, Illinois, U.S.A.
Dates: 3 – 6 November 2013
