Chrome DIN Rail Power Supply Series is Now Available with 5V Output Voltage Suitable for Controller Unit

CHROME

DRC-5V10W1AZ (5V 7.5W DIN RAIL POWER SUPPLY)

SAFETY APPROVALS

FEATURES

Delta Electronics extends its Chrome DIN rail power supply series with the addition of a compact 5V output voltage product suitable for controller unit which provides 7.5W output power. The Class II double isolation power supply is designed for use in small cabinets where space and product safety are of utmost importance. The [DRC-5V10W1AZ](#) requires less installation space with its compact body measuring only 55.6mm thick and 91mm tall. The design not only does not require earth connection, it also has very low leakage current and is thus especially useful for home automations and the food and beverage industry.

Highlights & Features

- Protection Class II, Double Isolation (No Earth connection is required)
- Universal AC input voltage and full power up to 55°C
- Power will not de-rate for the entire input voltage range
- Efficiency > 77.0%
- NEC Class 2 / Limited Power Source (LPS) certified
- Overvoltage / Overcurrent / Over Temperature Protections
